

Sealight Strobe Light

Brand:

Price: \$42.90

Short Description

VERY Bright heavy duty marine strobe light in Blue, White, Red and Yellow.

Description

Available in White, Blue, Red, Yellow

Very Bright heavy duty waterproof strobe light for commercial (buoys, markers etc) as well as recreational boating (rowers, dinghies, etc). Much brighter than most other strobes.

Photocell activated: Turns on at night and off in daylight. On-Off override switch so you don't waste batteries in port. Used by professional long-liners to mark floats and buoys. Very tough. Water resistant to 50 meters.

Very BRIGHT. Visible for 3km plus! Beware: there are some inferior cheap knock-offs for this popular strobe that look very similar, but they have a slide switch instead of a rubber, water-proof bottom switch. Buy with confidence from Fishing International--the largest commercial fishing supplies wholesaler in Australia.

Takes 4 x AA Batteries **Not Included**
